PROFESSIONAL SUMMARY

Aspiring Full Stack Developer with strong proficiency in Python and Django, and hands-on experience with React.js, HTML, CSS, and JavaScript. Skilled in developing RESTful APIs, integrating web services, and working with MySQL ,MONGODB databases to build responsive and scalable web applications. Experienced in writing clean, maintainable code, translating business requirements into technical solutions, and optimizing application performance. Adept at testing, debugging, and collaborating effectively within a team environment to deliver high-quality software solutions.

EDUCATION

B.Tech in Artificial Intelligence and Data Science

Anand Institute of Higher Technology | 2023–Present | CGPA: 7/10

TECHNICAL SKILLS

Languages : Python, JavaScript, HTML, CSS, SQL
Backend : Django, Django REST Framework, RESTful APIs, FastAPI, Web Services Integration
Frontend : React.js, JavaScript, Responsive UI Design, Application State Management
Databases :SQ LITE, MySQL, MongoDB
AI & ML : Scikit-learn, TensorFlow, LLM Integration
Tools & Practices: Git, Docker, REST API Design, Software Testing & Debugging, Code Reviews, Agile Collaboration, CI/CD

PROJECTS

Full-Stack E-Commerce Platform (Next.js, Django, React, REST API, Stripe) | Jul 2026

- Built a full-stack E-Commerce Platform using Next.js, React.js, Django REST Framework, and SQL database, providing a scalable architecture for online shopping.
- Designed and integrated RESTful APIs for product management, shopping cart, order processing, and secure communication between the React frontend and Django backend.
- Implemented secure online payment functionality using Stripe and PayPal, along with dynamic cart management, category filtering, and responsive user interfaces.
- Developed reusable React components, managed application state using Context API, and optimized frontend performance with modern component-based architecture and responsive Bootstrap design.

Task Manager | React, Django, Python, SQL | OCT 2025

- Developed a full-stack Task Management System using React.js, Django, Django REST Framework, and SQL database, enabling efficient task organization and tracking.
- Designed and implemented RESTful APIs to support complete CRUD functionality, ensuring seamless communication between frontend and backend.
- Built interactive React components for creating, editing, updating, and deleting tasks with real-time UI updates and responsive design.
- Structured the backend using Django Models, Serializers, and REST APIs while following clean coding practices to improve maintainability and scalability.

PROFESSIONAL EXPERIENCE

Intern – Chez IT Solutions Pvt Ltd, Chennai May 2025 – September 2025

- Contributed to web development, IoT, automation, and data science projects during the internship at Chez IT Solutions Pvt Ltd.
- Assisted in developing and testing web applications, enhancing functionality, responsiveness, and user experience.
- Collaborated with team members on research-driven projects, gaining practical experience in problem-solving, debugging, and technical implementation.

CERTIFICATIONS

- Introduction to Responsible AI – Google Cloud (2025)
- Database Management System – MongoDB (2025)
- Data Analytics with Machine Learning – Digi {AI} tyic (2026)
- Basics of UI UX strategy - Cambridge international qualifications (CIQ) (2025)
